

P A G E I N D E X

PART I Outline of NRDF

1. Introduction ----->	1
2. Management system of NRDF ----->	4
2.1 Information representation ----->	4
2.1.1 Set representation of event records ----->	4
2.1.2 Syntax of input data ----->	5
2.1.3 Example of input data ----->	6
2.2 Information structure ----->	8
2.2.1 X1 ----->	8
2.2.2 X2 ----->	8
2.2.3 X3 ----->	9
2.2.4 Relationship among X1, X2 and X3 ----->	9
3. Format translation from NRDF to EXFOR ----->	10

PART II Guide to NRDF

1. User's guide ----->	15
1.1 To be an authorized user ----->	15
1.2 Opening TSS session ----->	15
1.2.1 Using TSS from out of Hokkaido Univ. ----->	15
1.2.2 Using TSS within the HUCC ----->	16
1.3 Entrance and exit from subsession of NRDF retrieval ----->	17
1.3.1 Entrance ----->	17
1.3.2 Exit ----->	17
1.4 Closing TSS session ----->	17
1.4.1 From out of Hokkaido Univ. ----->	17
1.4.2 Within the HUCC ----->	18
1.5 How to retrieve CPND from NRDF ----->	19
1.5.1 Indices used in NRDF ----->	19
1.5.2 Search command ----->	20
1.5.3 DISPLAY command ----->	22
1.5.4 DELETE command ----->	22
1.5.5 END command ----->	22
1.6 An example of retrieval ----->	22
2. Coder's guide ----->	37
2.1 Character set ----->	37
2.2 Coding ----->	38
2.2.1 Examples of filling in coding sheets ----->	39
2.3 Format of particle representation ----->	41
2.3.1 Nuclide ----->	41
2.3.2 Elementary particles ----->	41
2.4 Format of coding reactions ----->	42
2.4.1 Usual two body reaction ----->	42
2.4.2 Reaction with multiple different particles emitted ----->	43
2.4.3 Reaction with multiple same particles emitted ----->	43
2.4.4 Inclusive reaction ----->	43
2.4.5 Fission reaction ----->	44
2.4.6 Fusion reaction ----->	44
3. Operater's guide ----->	44

3.1	Procedure flow of data entry ----->	44
3.1.1	Files and materials ----->	45
3.2	Detail of steps ----->	45
3.2.1	Survey of new CPND ----->	45
3.2.2	Making copy of published paper ----->	46
3.2.3	Checking out graphs ----->	46
3.2.4	Digitization of graphs ----->	46
3.2.5	DG-FLOPPY to DGDATA ----->	49
3.2.6	Tabulation of graph ----->	49
3.2.7	Data coding ----->	52
3.2.8	Key-in ----->	52
3.2.9	Data-floppy to disk data set ----->	52
3.2.10	Merge of graph data and coded data ----->	52
3.2.11	Syntax check ----->	53
3.2.12	File update ----->	53
